Santa Clause, Rudolf, the fairies and the elves are all busy preparing for the big night!

They have had lots of jobs to do and problems to solve.

Can you help them out by solving these Christmas maths problems for them?

1

This is just a small snapshot of the thousands of unique, time-saving early years teaching resources available to download here at Early Learning HQ. You'll find resources across a whole range of popular early years themes including superheroes, people who help us and pirates as well as resources to help with planning, observations and behaviour management. There are also resources to support the teaching of maths and literacy, including a whole suite of phonics resources. Some of our resources are free but to access all of them you'll need an ELHQ Premium membership. Sign up now to access a world of tried and tested, creative content that will help children develop, learn and have fun. Here's a selection of our latest early years teaching resources. Click here to see a more comprehensive list. We are constantly updating the site with new classroom display resources, lesson plans, games and activities so please keep checking back. Our team of designers are here to help you so if you have an idea for a resource that you would like to see then please get in touch. We want to help you create the best possible learning environment, whether that's in a school, early years setting or at home. Hit the Button Quick fire questions on number bonds, doubling, halving, times tables, division facts and square numbers against the clock. Brilliant for improving mental maths and calculation skills, but particularly times tables either up to 10 or up to 12 times. Subtraction Grids Can you meet the challenge to see how many subtraction calculations you can do in two minutes? There are different levels and you can choose either one or two missing numbers to make your number sentence correct. Mental Maths Train Mental Maths Train is a maths game which focuses on the essential vocabulary of addition, subtraction, multiplication and division. A multiple choice game which can give children confidence in the four arithmetic operations. Caterpillar Ordering A flexible game for ordering numbers and for number sequences. Fantastic on an interactive whiteboard. Levels range from ordering and sequencing numbers to 5 up to decimals. Rocket Rounding A multiple choice game involving rounding numbers to ten, a hundred and to a whole number. There are two options, one with a number line and the other more difficult level, without one. Multiples and Factors A multiple choice game with two game modes. In the first you need to identify the Lowest Common Multiple and in the second the Highest Common Factor. Questions increase in difficulty depending on accuracy Shape Patterns Shape Patterns is a sequencing game where children from 3 to 8 years of age need to complete the pattern of different coloured 2D shapes. Three levels of difficulty. Teddy Numbers The Teddy Numbers game can help you to learn numbers to 15. Learn the digits and words for the numbers and it game can help you learn to count too. Arrow Cards Build a two or three digit number using the cards. Click the button to see how it is written. This site can help children understand place value. It is suitable for use on an interactive whiteboard. Underwater Counting Can you find the treasure? You need to count the underwater creatures. This game has two levels: Count to 5 and Count to 10. If children are required to isolate at home in future, if children must learn from home due to isolation, we offer various options which they can make use of. There are a number of resources on the site which are always free, two week free trials are available and school subscriptions are temporarily valid for pupils to use from home. In addition to this our sister sites, SpellingPlay and PhonicsPlayComics remain free. To receive a password update email, please visit the Lost Password page. DfE validation process. Our response can be found here. Thank you very much for your ongoing support. Page 2 Home Resources Teachers Parents FAQs Subscribe Phase 1 Phase 2 Phase 3 Phase 4 Phase 5 Phase 6 Page 3 Page 4 Page 5 Page 6 Page 7 Phase 6 has evolved over time. When Letters and Sounds was first introduced, Phase 6 (usually taught in Y2) wasn't outlined in great depth. Letters and Sounds simply identified a few general areas of spelling and gave advice on how to build on phonics learning to begin to teach these aspects of spelling. In 2009, the Support for Spelling document was introduced for years 2-6. It introduced specific half termly spelling units in Y2 which were much more closely aligned with the way that spelling is taught in KS2 (albeit still ensuring that there was a lot of emphasis on using phonics to inform spelling). The new curriculum (2014) includes a lot of very specific spelling learning that should be covered in Y2 (some new bits of learning have been moved into Y2 whilst other bits have been moved out into other year groups). Whilst the essence of Phase 6 (helping children to transition from phonics to spelling) hasn't really altered, the fine details of what should be included in Y2 have certainly changed. New planning and resources for teaching spelling in Year 2 can be found at www.spellingplay.co.uk. The existing PhonicsPlay resources for Phase 6 will remain available on this page for those who find them useful. However, please be aware that they were created some time ago and no longer match up neatly with the new curriculum. In terms of reading at Phase 6, the main aim is to help children develop automaticity. Children need as many opportunities as possible to read a wide range of interesting, engaging texts at an appropriate level to help them build stamina, confidence and to develop a love of reading. Specific reading skills are generally developed in guided and shared reading sessions. Hit the Button Quick fire questions on number bonds, doubling, halving, times tables, division facts and square numbers against the clock. Brilliant for improving mental maths and calculation skills, but particularly times tables either up to 10 or up to 12 times. Subtraction Grids Can you meet the challenge to see how many subtraction calculations you can do in two minutes? There are different levels and you can choose either one or two missing numbers to make your number sentence correct. Mental Maths Train Mental Maths Train is a maths game which focuses on the essential vocabulary of addition, subtraction, multiplication and division. A multiple choice game which can give children confidence in the four arithmetic operations. Caterpillar Ordering A flexible game for ordering numbers and for number sequences. Fantastic on an interactive whiteboard. Levels range from ordering and sequencing numbers to 5 up to decimals. Shape Patterns Shape Patterns is a sequencing game where children from 3 to 8 years of age need to complete the pattern of different coloured 2D shapes. Three levels of difficulty. Guided Reading and Reading Games with Roy the Zebra A wonderful guided reading story with accompanying printable worksheets and guided reading discussion sheets. There are 80 interactive literacy games, stories and songs for use in school or at home. Well worth a look! Intel Education Resources A fantastic free resource from Intel with teaching tools and resources, lesson plans and project ideas. Worth exploring. Arrow Cards Build a two or three digit number using the cards. Click the button to see how it is written. This site can help children understand place value. It is suitable for use on an interactive whiteboard. Underwater Counting Can you find the treasure? You need to count the underwater creatures. This game has two levels: Count to 5 and Count to 10. All about Autumn Find out about autumn in simple, illustrated text for children by Topmarks. It looks at the things that happen and are seen in Autumn in the UK.

Quick fire questions on number bonds, doubling, halving, times tables, division facts and square numbers against the clock. ... Mental Maths Train is a maths game which focuses on the essential vocabulary of addition, subtraction, ... A wonderful guided reading story with accompanying printable worksheets and guided reading discussion sheets. There are also resources to support the teaching of maths and literacy. ...
