Find the list of top manga apps for android to read the manga books and comics on Android legally. Who does not loves manga? But, what about reading manga on the go while you are moving. Now, enjoy reading manga on your Android mobile with these best manga apps for Android. Manga Apps For Android Manga has been around for almost a decade. No matter who you are and what age group you belong to, you always like reading manga. In this digital culture, there are several digital products like Kindle, Google Play Books etc to read e-books including manga as well. But, how about reading manga on your Android smartphones? Yes, there are several apps available on the play store you can use to download and read manga on Android. Here we have collected the list of the top 10 best Manga apps for Android you can use to enjoy reading Manga on Android devices. A manga app lets you download, read and share your favorite manga on android with friends. In the list, we have collected a list of top free manga apps while others are paid. Best Manga Apps For Android: Free and Paid 1. VIZ Manga App VIZ Manga App is on the list of top free manga apps for Android. This is not an app from a developer or fan but the app is designed and developed by a manga publisher itself. This free manga app provides a free weekly Shonen Jump magazine app and read issues. In addition, you can use VIZ Manga as a standard manga app for Android. The app is free to download and enjoy reading manga on the go. It offers you to access the most popular categories and collections of manga and comics including hit series. You can find a huge collection of manga comics on the app including Dragon Ball Super, My Hero Academia, Naruto Next Generations and the other cult classic mangas like Vampire Knight, Tokyo Ghoul, Official RWBY Manga Anthology, and more. Price: Free with in-app purchase Download VIZ Manga from Playstore 2. ComicRack ComicRack is the fully-featured manga app for Android where you can read almost all the latest and classic manga comics. The app is completely customizable and allows you to create a bookmark of your favorite manga comics. The app is completely compatible with running on emulators like Bluestacks that give you the liberty to read the manga on Android mobile and a PC as well. All you need is an Android emulator. Unfortunately, the app is not completely free but paying the price of \$8 is worth it as compared to other manga apps on Android. Elegant look, huge collection, fully customizable and multi-platform compatibility makes this paid manga app hit the second position on the list. Price: \$7.99 Download ComicRack from Playstore 3. MangaToon As the name suggests itself, MangaToon is a dedicated Manga app for Android, the only app on Android where you can enjoy reading Manga comics in color. In addition, it also allows you to share your own story on the app. The platform can give the needed exposure to your stories so that they can bring a lot of praise to you. Also, the MangaToon allows you to read manga in several languages including English, Indonesian, Vietnamese, Spanish, Portuguese and Thai, which is yet another plus from the flexibility perspective. Price: Free- In app purchase Download MangaToon from Playstore 4. Manga Box: Manga App Yet, another Manga reader app for Android that is absolutely free. One of the best essential manga app for Android with a huge collection of the Latest manga to read. The Manga Box is available in the Japanese language but, yet quite popular as it supports all other major languages. Wide range of manga comics categorized as comic, comedy, crime, and other several genres. The app is completely free and can be found on the play store itself. Price: Free- In app purchase Download Manga Box from Playstore 5. Tachiyomi Tachiyomi is another popular free Manga app for Android. If you are a manga reader who loves reading NSFW stuff AKS Adult Mangas, the Tachiyomi is the best manga app for you. The app also has a variety of extensions that provide even more manga along with catalogs from a variety of manga sources. The app is free but yet the app is not available to download from the official play store. May, be the NSFW Manga stuff keeps it from publishing it on the Google play store as it may violate the policies. You can still download Tachiyomi from github itself. Price: Free- In app purchase DOWNLOAD FROM GITHUB 6. Shonen Jump Shonen Jump is the biggest Manga magazine in Japan. All the Manga comics series like My Hero Academia and Jujutsu Kaisen are released on the app in several languages on the released data along with Japanese. Gone those days when manga readers had to wait for years to read the Manga in non-japanese language. With this app, you can read all the latest released Mangas on the same day of release in several languages including English. The app allows you to read selected chapters for free. But, in order to access the full book, you need to pay a minimal subscription fee of \$1.99 per month. Price: Subscription base \$1.99 per month Download Shonen Jump from Playstore 7. Book Walker Book Walker is a universal e-bookstore for Manga readers. You can enjoy reading Manga on Android using the app. Actually, Book Walker is a book store to purchase and read Mangas. The only reason the app was included on the list is because of the huge collection of Manga comics. The app is also available for Browser. iOS and other major platforms. The major downside of this site, however, is that it's based in Tokyo, so you may be charged foreign transaction fees. Price: Paid Download Book Walker from Playstore 8. Manga Geek-Free Manga Reader App Manga Geek is a free app for reading manga and manhua online. It simply aggregates links from the Internet in a convenient, user-friendly interface. It's updated every day and easy to use with the following features. Features: - Creative Design, Friendly user interface. - Discover all week Manga in different languages such as English, Español, Français - Huge Database, More than 40000 free manga, and comics - Multiple manga sources - Discover all week Manga in different languages - Auto-update when new chapters are available - Amazing Anime Live wallpapers are here. Choose your favorite character as your home screen. - Fast Release You can now read your manga unlimited downloads for offline reading. All your favorite manga are here, enjoy them whenever and wherever with the best user experience! No matter what generation you belong to, Anime TV shows must have been part of your childhood, with Mazinga in the 80s, DragonBall Z in the 90s and of course Tokyo Ghoul in recent years - the sleek designs and character detail that we all know and love can be obtained from two sources that both stem from Japanese culture - Anime and Manga. Manga is the comic book version of anime and can be downloaded onto your Android device for instant access. We're even compiled 6 of the most user-friendly manga reader apps for Android for you to choose from: 1. Manga Browser Manga Browser is completely free on Android and carries a minimal UI that's easy to run through. Since it's a free app, there are a few pesky ads you'll need to tolerate; but apart from that it's packed with manga that you can browse through without limit. If the ads start to annoy you, you can easily commit to a one-time free or subscription package for uninterrupted reading. 2. Crunchyroll Manga Crunchyroll Manga is your one-stop-shop for both anime and manga! This subscription-based app allows you to create a free account and access a restricted amount of content. But opting for the full version could be super for the avid manga and anime lover. Their collection is great and super up-to-date. The only downside here is that the interface is not so user-friendly. Try out the free version before you subscribe. 3. MangaZone MangaZone has a collection of +15K manga on its app. They have all been translated into English and hit the mark on each genre of manga, from Shonen to Shojo, this app has it all, just choose our category and get prepared for the most epic samurai battle. The free version will even give you access to the Community page where you can get tips and advice from fellow manga lovers. MangaZone could be a little buggy sometimes - only downside. 4. MangaLife The verdict might be out for MangaLife - rated as one of the best manga apps out there for Android. The 24K titles are constantly updated with free access manga while a few elite selections will be saved for the premium subscription. The app is easy to navigate and fun to use - this one is really worth the download. 5. Manga Rock Manga Rock is one of the most popular apps for any manga reader. Available on both Android and Apple, this app has a great selection of manga that can be saved to your phone. With over 100,000 titles, Manga Rock has the potential to serve your every manga need. You can even opt for a premium version for a minimal cost - test out your VPN before you subscribe; this app is location restricted. 6. Manga Geek Manga Geek's easy to use and aesthetically pleasing interface is creative and quite addictive. Manga Geek is your best friend while travelling with its fantastic offline mode feature - there are 40K titles to choose from and counting. With a huge stream of content providers connecting with this app you'll never miss out on the latest issue or series. Manga is a great creative art that compels readers to use their imagination and develop interesting, and sometimes unbelievable stories. Did we mention your favourite manga reader? . Looking for a new Smartphone? Check out our Latest Mobile Phones Models at Best Prices in Malta! As a kid, I could count on comics to sail through plenty of free times. While I loved all sorts of comics, mangas aka Japanese comic books were one of my top picks. With an intriguing storyline coupled with vivid pictures, those comic books left a lasting impression. And despite having a boatload of movies to watch on Netflix, I turn back to the classy Japanese comics again and again. They fill my time with plenty of bone-tickling comedies and whimsical fantasies. If you are willing to give them a chance as well, look no further than this meticulous selection of the 15 best manga apps for Android and iPhone. Best Manga Apps for Android and iOS in 2022 So, what sort of comics do you like to take on: comedy, action, horror or love? Considering the age-old theory that the one size may not fit all, I have picked out the apps that cater to a wide range of tastes. Therefore, irrespective of what appeals to your choice, you can find comic books that can take you for a long reading spree. And that too without costing you anything/much. With that said, let's flip over the first story of a long series! 1. VIZ Manga To get started on the right note, I would like to put VIZ Manga right at the top of this lineup. Boasting entire VIZ digital catalog, the app offers you access to most popular manga and comics including the hit series such as Dragon Ball Super, My Hero Academia, and the cult classics like Vampire Knight, Tokyo Ghoul, Official RWBY Manga Anthology, and more. Furthermore, the app keeps on adding new series regularly so that you always have something really interesting to read. One of my favorite features of this app is the ability to build a vast library of interesting mangas. With a fully personalized library at hand, you can catch up with your favorite comics at your own pace. Not just that, it offers a downloading option as well to let you read books even offline. What's more, the app also lets you read free previews of paid volumes so that you can make an informed buying decision. Key Features: New chapters are added dailyOffline reading is available Key Titles Available: My Hero AcademiaDragon Ball SuperOne PieceBorutoVampire KnightTokyo Ghoul Install: Android and iOS (Free, in-app purchases available) 2. Crunchyroll Manga When you have the official manga app at the disposal, getting the latest manga titles directly from Japan becomes easy-picking. As you may have already guessed, Crunchyroll Manga is an official manga app for Android and iOS that lets you quickly access the hottest manga books as soon as they are rolled out in the newswstands in Japan. So, staying in the loop with all the trending books like Fairy Tail, Space Brothers, and Attack on Titan will be smooth-sailing for you. The app features a clean look and also offers some neat customization tools so that you can fine-tune all of your favorite titles in line with your reading taste. Do note that Crunchyroll Manga's freemium model is quite basic. Therefore, you will need to get a premium membership, if you wish to get the entire series catalog or have unlimited reading access. Key Features: Almost every popular title is availableRegular chapter updates Key Titles Available: Attack on TitanFairy TailSpace BrothersKing's Game Origin Install: Android and iOS (Free, in-app purchases available) I can't possibly write a list of manga apps for iPhone and Android and not mention something about the Shonen Jump series, right? Well, the Shonen Jump app is the perfect manga reader for you. Shipped with over 100 chapters for free every day. However, if you want to read more than that, you can pay \$1.99 per month to unlock unlimited reading. Shonen Jump has all the latest chapters from your favorite Shonen Jump series that are updated as soon as new chapters are released, so you will never have to wait for new chapters. That said, bear in mind that this app only deals with Shonen Jump series, which includes some of the most popular names such as Naruto, Dr. Stone, and One Piece. Key Features: All of Shonen Jump titlesNew chapters added as soon as they become available100 free chapters daily Key Titles Available: Install: Android and iOS (Free) 4. Mangamo When you're looking for the best manga reader apps for Android and iPhone, you'll come across many that offer manga illegally, that's not right; so if you want to read manga legally and ensure that the authors get their due cut, you should check out Mangamo. It is one of the best manga reader apps you can find out there, boasting a pretty solid collection of titles for your perusal. The app comes with some of the biggest manga titles out there such as Attack on Titan, among others. The subscription isn't too steep, at \$4.99 per month, and gives you access to over 300 manga comics. New chapters are added every week, so you'll always have something to read. Plus, there are no ads either, which means your experience will not be hindered by random pop ups and other ads. Moreover, if you want to try it out before subscribing, Mangamo actually allows anyone to read one free chapter every 24 hours without any registration. Key Features: Over 300 titlesAll inclusive subscription, no hidden feesNo ads Key Titles Available: Attack on TitanDevil-ChiLoving Yamada at LV999 Install: Android and iOS (Free, subscription priced at \$4.99 per month) 5. Manga Plus Another manga reader app you should check out is Manga Plus. The service brings an absolute ton of manga comics to your fingertips for you to read anytime you like. It's an official service that's available free of cost and brings almost every Shonen Jump title you can think of. Whether you're a fan of Naruto, My Hero Academia, Jujutsu Kaisen, or Dragon Ball, you can find all the comics right here on Manga Plus. Manga Plus has the latest chapters from all your favourite Manga series in English and Spanish, and is controlled by Shueisha, which is a Japanese publisher that works with manga artists and creators. So, you can rest assured that you're not indulging in piracy by using this free manga reader app. Key Features: Almost every Shonen Jump title is available Completely free of charge.Available in English and Spanish. Key Titles Available: NarutoDragon BallMy Hero AcademiaOne Piece Install: Android and iOS (Free) 6. Tachiyomi Tachiyomi is one of the most loved manga reader apps for Android users out there. It's a completely free and open-source Manga reader that you can install on your phone. The app itself doesn't offer a catalog of manga to read, but you can add manga sources to the app, and it will automatically organise them for you so you can read whichever comic you want to read at your leisure. It supports services like MyAnimeList, AniList, Kitsu, Shikimori, and Bangumi. The reader itself is also highly customisable, and you can adjust things like the color filters and more, including custom reading modes. The only drawback of this app is the fact that it's only available for Android. If you're an iPhone user, you will have to go with one of the other apps mentioned on our list for your manga fix. Key Features: Free and open-sourceSupports a variety of manga sources Key Titles Available: Supports manga comics from a variety of sources Install: Android (Free) 7. ComicRack If I were to pick a fully-featured manga app for Android, I would happily go with ComicRack. Probably, the best part about this app is a range of reading tools that offer a much-improved reading experience. For instance, you can fine-tune the colors as per your comfort so that the extensive reading won't harm your eyes. Plus, it features super handy management of reading states like completed, unread, and bookmarks. Thanks to the app widgets, keeping track of the stories that may hook you for hours becomes quite straightforward. Another feature that gives ComicRack an edge over many other counterparts is the ability to support for CBZ, CBR, CB7, CBT, PDF, DJVU, and WebComics when used together with the Windows' version of the app. And with some cool live wallpapers at hand, it can also let you customize the appearance of the app. Just in case you would like to keep your fellow Twitter followers in the loop about what you read, there is a Twitter integration as well. As for the pricing, ComicRack is a touch expensive at \$8. But, considering the notable features, the manga app is worth it. Do note that, it's available for iPad and not iPhone, which seems a bit disappointing. Key Features: Comes with a full screen reading modePC compatibilitySupports a huge variety of file types Install: Android (\$7.99) 8. INKR Comics INKR Comics is the brainchild of the team behind popular scanlation manga aggregator app 'Manga Rock'. Announced in April of 2020, the team strives to support comic creators and publishers. To achieve this, the revenue generated from the app is split between content creators and publishers. With this app, you get access to a variety of comics across action, romance, comedy, horror, drama, isekai, slice of life, sci-fi, and more. Combined with the personalized recommendations system, you will discover content that you are likely to love. Moreover, if you have multiple devices, the app auto-syncs your data and reading progress. Key Features: Brings manga, webtoons, and manhua in one handy location.Preview option helps choose which titles to read nextPersonalised recommendations Key Titles Available: Attack on TitanScarecrowThe ReversalSpirit CatcherGeneration Wu Install: Android and iOS (Free, in-app purchases available) 9. MangaToon Should you wish to read colorful comics, I would recommend you to give a shot to MangaToon. Both in terms of having a big library and a wide range of genres including comedy, love, horror, romance, and action, this manga app looks right on the money to me. Just like most of its counterparts, it also adds the hottest web comics daily. And based on your taste, you can make a nice collection of your favorite books and even download the ones which you want to read without any interruption during offline. Have an interesting story to share with others? Well, you can also write your own stories that you have kept under wraps for years and share them with others. The platform can give the needed exposure to your stories so that they can bring a lot of praise to you. Furthermore, MangaToon has support for several languages including English, Indonesian, Vietnamese, Spanish, Portuguese and Thai, which is yet another plus from the flexibility perspective. Key Features: Daily updatesBrings a bunch of free comicsOffline reading supportCreate your own stories Key Titles Available: Supreme Demon WarriorBattle Through the HeavensThe MaskMode II Install: Android and iOS (Free, in-app purchases available) 10. Manga Dogs When you talk about the top manga apps for iOS and Android, it wouldn't be wise to give a miss to a highly intuitive app like Manga Dogs. One of the biggest highlights of this app is a massive library of thousands of mangas from more than 20 sources. So, I bet it has the goods to cater to your different reading tastes. As the app also keeps a tab on your interest and offers recommendations accordingly, finding the mangas that can live up to your preference should be quite easy. Besides, it also sends out alerts whenever your favorite books are updated so that you don't miss out on them. On top of all, Manga Docs comes with a handy advanced setting that opens the game for plenty of customization to spice up your reading. Key Features: Massive library of comicsPersonalised recommendationsHorizontal and vertical reading modes Key Titles Available: Martial PeakApotheosisGod of Martial ArtsYuan ZunThe Strongest God KingThe Mythical Realm Install: Android and iOS (Free, in-app purchases available) 11. Manga Reader Claiming to be the ultimate manga app for both iOS and Android, Manga Reader has got all sorts of tricks to win you over. First and foremost, the app offers you access to thousands of mangas from more than 30 sources which makes it a one-stop-platform. With a smart filter, it lets you quickly find specific comic books. As it also keeps a close watch on the search history and what appeals to your interest, you should expect your recommendations to be spot on. What has called for my attention is the ability to download up to 5 mangas simultaneously. Save it for the times where you are in a hurry to put all of your favorites in a special kitty for uninterrupted offline reading. Key Features: One of the largest catalog of mangaGood recommendationsSimultaneous downloads Key Titles Available: BakiToughBeelzebubInitial DMartial Peak Install: Android and iOS (Free, in-app purchases available) 12. Manga Monster While Manga Monster may not be the most feature-rich manga app out there, you can bank on it to offer a decent manga reading experience. Loaded with a vast catalog of over 24000 mangas, the app is up to the mark when it comes to having variety. Besides, the regular update means you will always have timely access to the latest editions. Featuring a clean interface and fairly simple tools, the app won't take much time to get into your groove. Being lightweight, it also feels snappier while running. Overall, it's decent app for your manga reading pleasure. Key Features: Over 24,000 manga comicsRegular updates Key Titles Available: NarutoOne PieceBleachSoul EaterAvatar: The Last Airbender Install: iOS (Free) 13. Manga Box For a simplified comic book experience, Manga Box has looked quite good to me. The app has one of the biggest libraries of books from popular authors. Thus, it doesn't matter what sort of books you love to read, chances are pretty high that the app can keep you glued to your books with a variety of genres. Additionally, the app also adds new content daily so that there is always a chance to bump into something that's really intriguing to read. In terms of customization, I have found Manga Box a little light. But if you aren't a fan of full-on customization, you won't have any complaint. With a clutter-free interface and easy-to-use tools, it ensures there is less learning curve. Key Features: New content added dailyAll free comics Key Titles Available: InghoshimaLast EncoreCat and Dragon Install: Android and iOS (Free, in-app purchases available) 14. Online Manga Reader Last but not least, Online Manga Reader has checked off all the essential boxes to be a reliable manga app. The app comes with an ever-updating catalog to let you read a wide range of Japanese comics like comedy, romance, horror, and more. But what makes it a fun-loving manga reader is the ability to let users read comics with music. Perfect for the times where you want to keep the monotonous feeling at bay. That aside, features like bookmark, offline reading, and creating a personalized collection of all the favorite books make it a safe bet for your mangas reading journey. Key Features: Continuously updated catalogRead comics with musicOffline reading Key Titles Available: BakiChang An Demon SongHistory's Strongest Disciple Install: Android (Free) 15. Manga Zone Rounding off our list of the best manga apps for iPhone and Android is Manga Zone. This app is a must for anyone who absolutely loves reading manga on their smartphone. Manga Zone offers a huge library of titles for you to read - over 15,000. And yes, all the titles on Manga Zone are available in English so you won't have to look around to find a translated copy for your reading. Manga Zone is available for both iPhone and Android, although the Android app isn't available on the Play Store and will have to be downloaded from the official site instead. Similar to Shonen Jump, Manga Zone also adds new chapters as soon as they are available, and you can even save your favorites. The app offers a nice search feature, and you can even download manga to read offline. All in all, this is a great manga app for iPhone and Android. Key Features: over 15,000 titlesNew chapters added as soon as they are releasedOffline support Key Titles Available: ApotheosisGod of Martial ArtsSpirit Sword SovereignMoshi Fanren Install: Android and iOS (Free) Choose the Best Manga Apps for iPhone and Android There you go! So, these are the top manga apps lined up for you. With a variety of apps at hand, I guess your eyes have caught the right manga reader. But before you start flipping over the pages or exploring the massive library of Japanese comics, be sure to let us know the app that has found a place on your device. Besides, also tell us about the worthy applications that might be missing from the roundup.
